Scarpeel Cream

Designed to treat and prevent atopic skin

Plant-based active ingredients help repair irritated skin and drastically protect skin tissue after professional biochemical peeling treatment.

Its moisturizing effect is due to the lipids and components of the stratum corneum that nourish and protect the skin, restoring the barrier function through the high hydration of Vitamin F.

Anti-aging
Effect

Chamomile extract
Liquorice extract
Rosemary extract

Repairing
Effect

Vitamin F
Shea Butter
Rosehip Oil

It contains sunscreen to prevent skin irritation after biochemical peeling. It is essential to avoid sun exposure after treatment

How to use

With clean and toned skin, apply Scarpeel Cream after a professional treatment with Scarpeel. Also, after a peeling with Pureglycopeel.

Use as many times as necessary, day and night.

Avoid the area around the eyes.

88,6 %

skin-friendly ingredients of natural origin:

Propanediol, Shea Butter, Rosehip Oil, Centella Asiatica Extract, Chamomile Extract, Rosemary Extract, Green Tea Extract, Liquorice extract.

6%

additional ingredients to ensure the stability and safety of the formula:

Solar filters to protect against the sun, Phenoxyethanol and Ethylhexylglycerin.

Scarpeel Cream is designed as part of the Scarpeel treatment and formulated to meet skin needs after a biochemical peeling with Scarpeel applied by a professional. After a biochemical peeling treatment, it is essential to follow the advice of the professional and continue with the home treatment to achieve the expected results.

Scarpeel minimizes the appearance of deeper scars.

Scarpeel is designed to treat skin imperfections. After intense acne or due to skin with many sebaceous secretions, it is common for the skin to be marked with small scars or imperfections. With Scarpeel we attack the damaged areas of the skin, to renew the cells and soften the skin through controlled cell regeneration, achieving a more homogeneous and smooth dermis.
