WHY LARIMIDE?

More than cosmetics.

A complete business model built for distributors.

4 Generation
Dedicated to cosmetic formulation and manufacturing.

Own Laboratory
Research, formulation and production under one roof.

Award-Winning Company
Recognised for innovation, R&D, international expansion and business excellence.

ISO 22716 GMP
Certified by SGS and AEMPS.

Real Clinical Evidence
Before & after cases, clinical protocols and instrumental evaluation.

Three Complementary Brands
Consumer, Professional and Medical-Aesthetic.

Professional Academy
Training, protocols and continuous technical support.

Protected Distribution
No price wars. No uncontrolled marketplaces.

Designed for Professionals. Built for Distributors.

LARIMIDE®
designed for professionals, built for distributors

We are not just looking for distributors, we are looking for partners

Today, distributors, clinics, and professionals operate in a market saturated with brands and products that promise a lot but deliver little trust, minimal differentiation, and results that are difficult to sustain before the end consumer. In an environment where new brands emerge constantly, it is becoming increasingly difficult to find a project capable of delivering real value to both professionals and distributors.

Scan or Click for **Video**

WHAT WE BRING TO OUR PARTNERS

At LARIMIDE, we understand that international growth is only possible when there is a fair, stable, and sustainable relationship with our distributors.

For this reason, our commercial policy has been designed to protect the value of the brand while ensuring the profitability of every distributor within their respective market.

OFFICIAL PRICE AT LARIMIDE.COM

LARIMIDE does not compete commercially with its distributors through its website. The prices published on our official channels establish the minimum retail price allowed to the end consumer. Distributors are free to sell above this price, but never below it.

This approach protects the brand's positioning, prevents aggressive discounting practices, and avoids unfair competition between distributors.

Channel protection

amazon Alibaba

MARKET PROTECTION

Furthermore, LARIMIDE maintains a strict policy regarding general marketplaces such as Amazon, avoiding the commercialization of the brand through channels that could negatively affect its premium positioning, professional image, or the stability of its international distribution network.

We believe in a business model based on respect for distributors, protection of the professional channel, and the development of long-term partnerships.

HIGH PROFITABILITY

In a market saturated with brands that promise much and deliver little, real value is hard to find.

Our pricing structure has been developed with distributor sustainability and growth in mind, offering structured and scalable margins according to sales volume and commercial development.

KOJAXIN. OUR HERO PRODUCT

THE STORY BEHIND KOJAXIN

KOJAXIN was born from success.

In 2020, Larimide developed an eyelash growth serum for a top eyelash brand. After manufacturing millions of units and confirming the effectiveness of its technology, our R&D team adapted it to the scalp.

The result was KOJAXIN—one of Larimide's flagship products and a remarkable success in China.

From eyelashes to hair. From proven science to proven efficacy.

2020
Eyelash growth serum

2024
KOJAXIN

Today
Our hero product

Formulated with Natural Ingredients

HAIR GROWTH ACTION
90.0%

HAIR LOSS ACTION
88.8%

KOJAXIN is a scalp serum that strengthens hair and activates the growth of hair follicles without the need for ingredients with hormonal activity against hair loss.

It contains 16 highly concentrated and pure active ingredients. The combination of these 16 ingredients produces a synergistic effect that directly acts on the hair follicles of the scalp, reducing hair loss, increasing the volume and density of existing hair, and promoting the growth of hair fibres that were in the shedding phase.

China, a success story

Developed to address hair loss —one of the concerns with the greatest emotional impact on individuals— Kojaxin has achieved a strong international recognition, particularly within the Asian market.

In China, the brand is represented by influencer Theresa Cheung, driving Kojaxin's digital presence through a communication network that reaches over 6 million followers via our official distributor's channels.

The growth and engagement achieved across social platforms and professional environments have made Kojaxin a definitive success story within the LARIMIDE ecosystem, reinforcing the brand's international positioning.

6M+
followers via official distributor

MEDICAL AND ACADEMIC POSITIONING

KOJAXIN has been incorporated into the Master of Lifelong Learning in Medicine and Hair Restoration developed by the Catholic University of Valencia (UCV) in collaboration with European Medical College (EMC).

This incorporation further reinforces **KOJAXIN's** positioning as a treatment developed not only for the commercial market, but also for professional environments where efficacy, protocol integration, and clinical credibility are essential.

Academic Integration

Its integration within this academic environment positions KOJAXIN as a professional topical solution designed to support hair strengthening, anti-hair loss protocols, and complementary treatments related to hair restoration and hair transplantation.

Professionals

Through this new programme, KOJAXIN is introduced to doctors, hair clinics, and prescribing professionals within a specialised framework focused on trichology, regenerative medicine, and hair restoration.

Training programme

The training programme covers areas directly aligned with KOJAXIN's positioning, including hair diagnostics, alopecia and hair disorders, medical hair treatments, regenerative medicine, cosmetic protocols, patient follow-up, and treatments associated with hair transplantation.

EFFICACY IS PROVEN

CLINICAL RESULTS.
VISIBLE TRANSFORMATIONS.

BEFORE AFTER

At Larimide, every before & after image is part of a broader evidence-based approach to efficacy evaluation.

Our results are supported by multiple complementary methodologies, including clinical evaluation protocols under dermatological supervision, TrichoScan® hair analysis, VISIA® facial skin assessment, standardized photographic documentation, and real clinical cases provided by physicians, aesthetic clinics and professional partners worldwide.

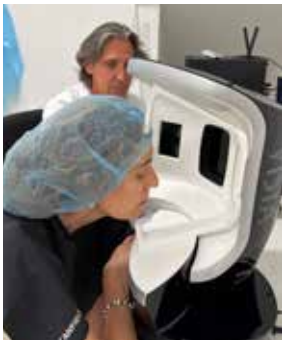

These methodologies allow us to objectively evaluate treatment performance under controlled conditions while continuously validating our protocols through everyday clinical practice.

In addition, Larimide receives documented cases from professionals and distributors across different countries, reflecting the real results achieved in aesthetic and medical-aesthetic environments.

The cases presented in this catalogue come from different sources of clinical evidence, but all share the same principle:

Real patients. Real treatments. Real results.

No simulations. No AI-generated images. No digital manipulation.

WHY OUR PARTNERS TRUST OUR PROTOCOLS

- Evidence-based protocols
- Real clinical cases
- Professional treatments
- Standardized protocols
- Visible results

CLINICAL RESULTS (Before & After)

Scan or Click for **Video**

1. MALE ALOPECIA

PROTOCOL

- Two Kojaxin sessions with microneedling every 15 days

Interval: 15 days

Treatments:

- Kojaxin ampoules

2. ANDROGENETIC ALOPECIA

PROTOCOL

- 4 microneedling sessions (1 x week)
- Daily at-home topical use of Kojaxin ampoules

Interval: 30 days

Treatments:

- Kojaxin ampoules

3. CYSTIC ACNE

PROTOCOL

- 2 sessions of acne Scarpeel protocol

Interval: 30 days

Treatments:

- Scarpeel

4. INFLAMMATORY ACNE

PROTOCOL

- 3 sessions of inflammatory cystic acne peeling (every 15 days), followed by Scarpeel Cocktail vial with microneedling (every 7 days)

Interval: 4 weeks

Treatments:

- Scarpeel Cocktail

5. MELASMA

PROTOCOL

- post-inflammatory hyperpigmentation with Comedopeel Plus, Melanze Tranexamic, and Melanze.

Interval: 4 sessions: one every 15 days for two months.

Treatments:

- Comedopeel Plus
- Melanze Tranexamic
- Melanze

6. IMMEDIATE LIFTING EFFECT

PROTOCOL

- One drop of product under the eye, fingertap to spread.
- Let it dry for two minutes

Interval: 1 single application

Treatments:

- Immediate lifting effect

7. SKIN BURN

PROTOCOL

- Apply to the affected area as often as needed, with a minimum of one application per day.

Interval: 5 days

Treatments:

- Maxinadin

8. PSORIASIS

PROTOCOL

- Apply to the affected area as often as needed, with a minimum of one application per day.

Interval: 4 weeks

Treatments:

- Maxinadin

MADE IN SPAIN

Spain has taken its talent around the world through companies, athletes, artists and professionals who have become international benchmarks.

Names such as Zara, Rafael Nadal, Julio Iglesias, Javier Bardem and Pablo Picasso represent a way of working based on excellence, innovation and the ability to compete at the highest level.

Larimide was born in that same environment.

A company developed in Spain, backed by four generations dedicated to cosmetic formulation and manufacturing, and driven by an international vision from the very beginning.

For us, Made in Spain is not simply a place of manufacture.

It is a way of understanding quality, innovation and the constant pursuit of excellence.

From Spain to the World

PRESENCE IN ALL CONTINENTS

WHO WE ARE

Larimide was founded in 2016 with a single product that, through distributors in different European and Asian markets, became known as "The Celebrities' Lifting Treatment."

In 2022, the company evolved into a complete ecosystem with the international launch of Larimide, Larimide Pro and Larimedical at different Cosmoprof editions in Asia, Bologna, Miami and India, beginning an international expansion that has since positioned the brand in markets across every continent.

Today, the three divisions address different needs within the aesthetic and medical-aesthetic sectors, from daily skincare to professional treatments and advanced aesthetic medicine.

From the beginning, Larimide has understood that the success of a brand depends not only on the quality of its products, but also on its ability to create sustainable business opportunities for the distributors who represent it.

Designed for Professionals. Built for Distributors.

OUR LAB

At LARIMIDE, innovation begins in the laboratory.

Research and Development is at the core of our activity, enabling us to create formulations, treatment protocols and cosmetic solutions designed to address real aesthetic and medical-aesthetic needs.

Our integrated structure combines R&D, formulation, manufacturing, packaging and quality control within a single ecosystem, ensuring complete traceability and control throughout every stage of the process.

With more than 5,000 m² of facilities, a team of over 50 professionals, and manufacturing certified in accordance with ISO 22716 Good Manufacturing Practices (GMP), audited by SGS and the Spanish Agency of Medicines and Medical Devices (AEMPS), Larimide controls every stage of the process, from formulation to finished product.

This capability allows us to manufacture a wide range of cosmetic products in multiple formats, adapting efficiently to the requirements of distributors and international markets.

Research creates innovation. Manufacturing guarantees consistency. Efficacy proves everything.

LARIMIDE ACADEMY

Full immersion in advanced aesthetics and cosmetic science.

At LARIMIDE, we understand that efficacy depends not only on the product itself, but also on professional knowledge and correct application.

For this reason, education is an essential pillar of our business model. We provide protocols, technical support, and continuous guidance to help professionals achieve consistent and reproducible results.

Our training system combines both theoretical and practical learning, specifically designed for aesthetic and medical-aesthetic professionals, enabling them to optimize treatments and adapt each protocol to the real needs of every patient.

Through workshops, scientific events, technical sessions, and educational content, LARIMIDE promotes a model based on specialization, evidence, and continuous improvement. Because in the professional sector, trust is also built through knowledge.

"Safety and rigor are the foundation of every treatment. From a medical perspective, we ensure that each protocol is supported by scientific evidence and clinical practice, enhancing the quality of and confidence in every procedure."

"Innovation is born from knowledge. At LARIMIDE, we teach you not only how to perform treatments, but also how to understand the skin and develop effective solutions.

My commitment is to bring science into the everyday practice of aesthetic professionals."

Perfection

For this reason, training is an essential part of our model, providing protocols, technical support, and continuous guidance to ensure consistent and reproducible results.

Customization

Our system integrates both theoretical and practical training tailored to professionals within the aesthetic and medical-aesthetic sectors, enabling treatments to be optimised and each protocol to be adapted to the real needs of the patient.

Experience

Through workshops, events, technical sessions, and educational content, LARIMIDE promotes a model based on specialisation, evidence, and continuous improvement.

A UNIQUE LEARNING EXPERIENCE

LARIMIDE® Academy

At LARIMIDE Academy, you will not only learn techniques...
you will experience a complete immersion in advanced aesthetics, cosmetic science, and professional development.

Training designed for professionals who want:

Cosmetic R&D

You won't just apply cosmetics... you'll learn how to creat them

- Learn to develop cosmetic products from scratch:
- Fundamentals of cosmetic formulation
- Active ingredient selection
- Creation of creams and serums
- Texture, pH, and stability optimization

Advanced Protocols

Take your results to the next level with specialized techniques:

- Biopeel & Shock protocols
- Transdermal delivery
- Customized cocktail combinations

Guided by our technical manager and formulator

Technical Training

Master the scientific and practical foundations:

- Professional facial diagnosis
- Chemical peels
- Skin biochemistry
- Microneedling
- Trichology and hair care (capillary science)

CORPORATE PHILOSOPHY

Scan or Click for **Video**

Because within the professional sector, trust is also built through knowledge.

"Today, artificial intelligence can make almost anything look real. As a result, it is becoming increasingly difficult to distinguish what is true from what only appears to be.

My family has been manufacturing cosmetics for four generations.

Perhaps that is why we understood something very important long ago:

True cosmetics are not defined by what they promise, but by what they achieve.

At Larimide, we do not work with perceptions. We work with results.

Efficacy is not interpreted. Efficacy is proven."

Mauricio Sanchis · CEO and Founder

COSMETIC SCIENCE WITH PURPOSE

Scan or Click for **Video**

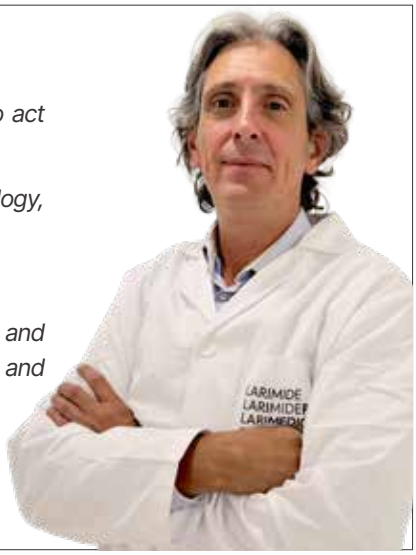

"At Larimide, we do not develop products for marketing purposes. We develop them to genuinely improve people's lives through visible and effective results.

Four generations dedicated to cosmetic formulation have taught us that trust is built over time, and that no commercial objective can ever come before quality, honesty and real efficacy.

That is the legacy we want to preserve: developing cosmetics responsibly, guided by scientific evidence and by respect for every professional and every person who places their trust in us."

Sonsoles Albert
Laboratory and R & D Product Development

"At Larimide, we approach cosmetics from a scientific and clinical perspective.

We develop formulations based on proven active ingredients, selected for their ability to act precisely on the real needs of the skin.

We work according to biomimetic principles, designing products that respect skin physiology, optimize its natural mechanisms and maximize efficacy while minimizing irritation.

We believe science should improve the skin, never compromise it.

Equally important is professional education. Through training, treatment protocols and continuous technical support, we help professionals apply every formulation correctly and consistently, because the best results are achieved when science and knowledge."

José María Blas
Medical Area Director - Protocols Training

Scan or Click for **Video**

"My generation has grown up in a world where it is becoming increasingly difficult to distinguish what is authentic from what is artificial.

I believe the future belongs to brands that can prove, through facts, what they communicate.

That is why we continue building a company where science, innovation and technology always serve one purpose: improving people's well-being through solutions that deliver measurable results.

Because the cosmetics of the future will not be the ones that make the biggest promises.

They will be the ones that prove them."

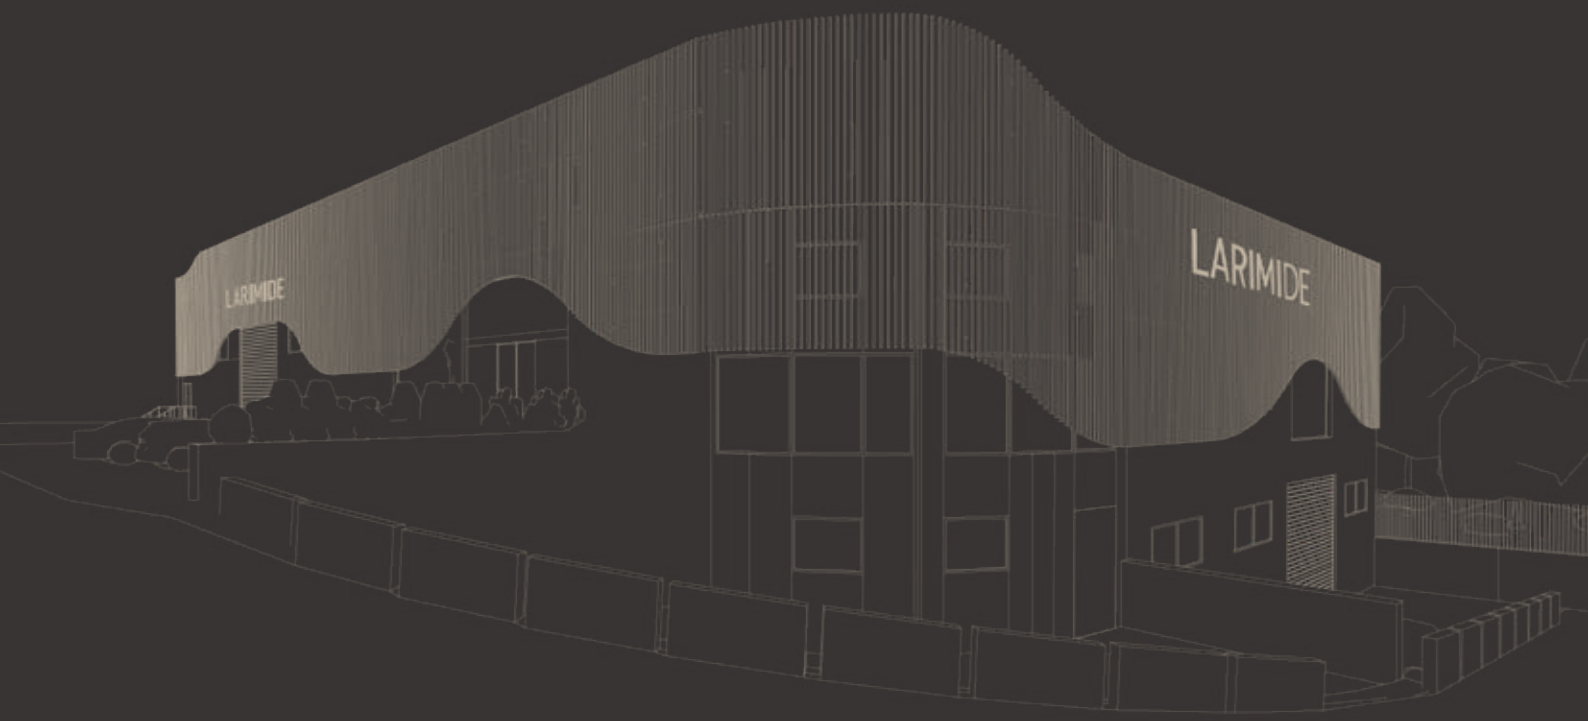

Sergio Sanchis
