LARIMIDE**PRO**®
Spain

LARIMIDE PRO are beauty rituals created for all those people who want to take their beauty to another level and live a unique experience at the hands of beauty professionals on the way to being more beautiful.

LARIMIDE PRO products cover all the needs of the skin, combining cabin treatment with use at home to be able to exert a total action every day of the month and obtain miraculous results in record time.

Apart from the complementary functions of cleansing, massage and finishing, the **LARIMIDE PRO** rituals revolve around 3 concepts: chemical exfoliation with peels with organic ingredients of biologic origin (Biopeels), direct activation through the use of specific ampoules for each treatment (Shock) and detoxification and relaxation provided by alginate masks (Alginasine).

LARIMIDE PRO, rituals at the forefront of professional cosmetics.

LARIMIDE PRO products are formulated by pharmacists with scientifically advanced molecules, tested and biocompatible with the dermal needs of all skin types. With selected ingredients that turn professional cosmetics into an avant-garde art that looks to the future, with highly effective products and seeking immediate results. Rituals designed by professionals according to the needs of the skin and the specific concerns of the clients.

LARIMIDE PRO has a position of 100% transparency with the ingredients it uses, as it is firmly committed to the environment and seeks to develop products that are in line with ethical and sustainable practices, where the goal is to leave a minimal carbon footprint. That is why the percentages of the active ingredients that compose it are detailed on the labelling of each product.

All **LARIMIDE PRO** products are manufactured in Spain, vegan, dermatologically tested, not tested on animals, and reusable or recyclable eco-friendly packaging is used as part of its commitment to the environment.

CLARIFY Micellar Water
500 ml

Eliminates impurities and excess sebum by gently cleansing and removing make-up from your face, eyes and lips

A true off-road micellar water formulated with natural ingredients. Regardless of skin type, it gently cleanses and revitalizes the skin, leaving it luminous. Revives the luminosity of dull complexions for an immediate new-skin effect.

PERFORMANCE

For all skin types that deeply purifies, cleanses and detoxifies the skin thanks to its high concentration of active ingredients. Closes the pores, keeping the skin oil-free for longer.

Used daily, provide intense and instant hydration, reduces sebum production, pore size and improves skin texture, with a pleasant sensation of freshness.

ACTIVE INGREDIENTS

Niacinamide

Regulates sebum production and pore size, has anti-pollution action and improves skin texture. In addition, it significantly increases hydration levels, the integrity of the stratum corneum barrier and elasticity.

Natural Moisturizing Factors

Are the substances that protect the skin against dehydration. They are responsible for maintaining an adequate level of water in the upper layers of the skin. It also plays a key role in maintaining the physical properties of the upper layers of the skin (the stratum corneum).

Carbohydrates

They are metabolic compounds that constitute the main source of energy for the human body, and fulfill other structural functions, such as water retention vehicles, and as protection mechanisms against external factors.

Hyaluronic Acid

Helps to strengthen the extracellular structure of our dermis, improving the elasticity and smoothness of our skin. Deeply hydrates the skin and improves its appearance.

HOW TO USE

Apply on a cotton pad, use it on the skin with a gentle massage.

Avoid contact with the inner eye.

96 %

skin-friendly ingredients of natural origin:

Niacinamide, Hyaluronic Acid, Urea, Fructose and Maltose.

1%

additional ingredients to ensure the stability and safety of the formula:

Sodium Benzoate, Potassium Sorbate.

Ophthalmologically Tested.

CLARIFY SILK Cleansing Milk

500 ml

With Soy Oil and Avocado Oil

Gently removes make-up and impurities while respecting the physiological balance of the skin. Purifies, softens and protects the skin thanks to its soft and light cleansing oils.

PERFORMANCE

Cleanses in depth without irritating, respecting the skin's dermal barrier thanks to its high concentration of vegetable oils. Controls sebaceous secretion and reduces open pores. Hydrates, revitalizes, illuminates and provides a radiant finish to the skin.

ACTIVE INGREDIENTS

Soybean oil

with a high content of vitamins, minerals and, above all, isoflavones with antioxidant properties. Soy helps keep skin's hydration levels constantly high. And it is that this plant acts as an antioxidant and prevents the action of free radicals by acting on the lipid profile of the skin and favouring the creation of collagen.

Avocado oil

Constitutes a great contribution of hydration and nutrition thanks to the fatty acids it contains, taking care of repairing damaged areas of the skin, especially dry or cracked skin. It is also special for sensitive skin, as it treats the skin gently and gently.

HOW TO USE

Apply the cleansing milk using the fingertips or a cotton pad on the face and neck. Combine it with Clarify to achieve perfect make-up removal.

99 %

skin-friendly ingredients of natural origin:

Soybean Oil, Olive Oil, Almond Oil, Avocado Oil, Ceramides.

1%

additional ingredients to ensure the stability and safety of the formula:

Sodium Benzoate, Potassium Sorbate.

Dermatologically tested.

CELLRENEW Exfoliating Toner

500 ml

Eliminate dead cells and reduce blackheads in a daily treatment with 2% Salicylic Acid

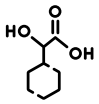

Fast absorbing toner removes built-up dead skin cells and fights blackheads.

A unique leave-in formula that is gentle enough for daily use on all skin types. Exfoliates dead skin cells while cleansing pores for a more even, radiant tone, plus visibly reduces fine lines and wrinkles for noticeably smoother, younger-looking skin. This scrub has an optimal pH range for the skin.

PERFORMANCE

When dead skin cells accumulate on its surface, the skin becomes brittle, dry and lifeless. Beta Hydroxy Acid (BHA, also known as Salicylic Acid) mimics younger skin's natural exfoliation process by helping it slough off extra layers while unclogging and cleansing pores.

ACTIVE INGREDIENTS

Salicylic Acid

Is part of the family of hydroxy acids and is a desmolytic ingredient. That means it targets certain protein bonds in skin known as desmosomes, that keep dead cells clinging to skin instead of sloughing off. Skin's natural shedding process can become faulty due to age, sun damage, and problems like acne and excess oil. Exfoliating helps restore this natural ability.

HOW TO USE

Gently apply using a cotton pad over entire face and neck, after cleansing.

Use with caution. Apply carefully and note skin's response. In case of itching, remove immediately with water. When used for daytime, always finish the treatment with a sunscreen.

99 %

skin-friendly ingredients of natural origin:

Salicylic Acid and Vitamin F.

1%

additional ingredients to ensure the stability and safety of the formula:

Sodium Benzoate, Potassium Sorbate.

Dermatologically tested.

TONIFY Hydrating Toner

500 ml

Balancing Action: Zinc Sulfate and Iris Root Extract help regulate sebum and purify the skin, promoting a clearer and more balanced complexion

A refreshing, soothing, and rebalancing facial toner designed to tone and revitalize the complexion while delivering antioxidant and calming benefits. Its gentle formula is enriched with botanical extracts known for their hydrating, soothing, and skin-conditioning properties, making it suitable for daily use and ideal for all skin types, including sensitive skin.

PERFORMANCE

Hydration and Comfort: The natural humectants attracts and retains moisture to keep the skin soft and supple.
Calming Effect: Centella Asiatica and Chamomile (Chamomilla Recutita) extracts provide soothing and anti-inflammatory effects, ideal for reducing redness and irritation.
Antioxidant Protection: A blend of botanical extracts such as Green Tea, Liquorice, and Rosemary offers antioxidant benefits that help protect the skin from environmental stress.

ACTIVE INGREDIENTS

Centella Asiatica Extract

Known for its soothing, repairing, and anti-inflammatory properties.

Chamomile Extract

Calms and softens the skin, reducing sensitivity.

Green Tea Extract

A powerful antioxidant that protects the skin from free radicals.

Iris Florentina Root Extract & Zinc Sulfate

Help purify and regulate sebum, suitable for combination or oily skin.

HOW TO USE

Gently apply using a cotton pad over entire face and neck, after cleansing.

Avoid contact with the inner eye

98 %

skin-friendly ingredients of natural origin:

Centella Asiatica Extract, Chamomilla Recutita Flower Extract

1%

additional ingredients to ensure the stability and safety of the formula:

Benzyl Alcohol, Sorbic Acid.

Dermatologically tested.

LARIMIDEPRO®
Spain

Facial

VITAMINIC Light Day Cream
200 ml

Activates and enhances the luminosity of your skin enjoying a fresh and invigorating dose of Vitamin C to start the day.
With Vitamin C and Phloretin

Contains a complex made up of 3 different types of stable vitamin C and phloretin, with a silky, light texture that is quickly absorbed. Its exceptional antioxidant action is capable of effectively neutralizing the negative impact of free radicals and oxidative stress that cause the appearance of the signs of ageing.

Visibly improves the dull tone of the skin, smooths imperfections and gives vitality to the roughest and dull skin.

PERFORMANCE

Feel the energizing vitamin C in high concentration that is capable of protecting your skin on multiple levels. It envelops the skin with its floral aromas, achieving a splendid, elastic and luminous complexion. Delays signs of fatigue and dull tone.

With multiple benefits for your body, it offers biological protection against pollution, and is deeply moisturizing. In addition, it naturally favours the production of collagen, improving firmness, and provides incredible luminosity.

ACTIVE INGREDIENTS

Vitamin C

Highly effective for skin care, it boosts collagen production to reduce the signs of ageing and correct dark spots. It is an antioxidant known for its ability to improve the appearance of aged skin. Increase radiance, improve texture and visibly reduce the appearance of lines, wrinkles and other signs of ageing.

Phloretin

Works as a powerful antioxidant, reduces the effects of skin ageing and makes it softer, more flexible and rejuvenated. Due to its polarity, phloretin also improves the effective penetration of products into the deeper layers of the skin. Repairs damage and provides a smoothing and calming effect.

HOW TO USE

Apply an even layer to clean skin, avoiding the eye area. Gently massage until fully absorbed. Use as the final step of the professional facial treatment.

Do not rinse.

92 %
skin-friendly ingredients of natural origin:

Vitamin C, Marula Oil, Phloretin, Hyaluronic Acid, Phytic Acid and Oat.

1%
additional ingredients to ensure the stability and safety of the formula:

Sodium Benzoate, Potassium Sorbate.

Dermatologically tested.

CANNANOUR Anti-ageing Night Treatment

200 ml

Intensely treats the skin to nourish the face and reverse the appearance of fine lines, sagging and wrinkles. With Hemp Oil, Rosehip Oil and Orange Extract

Intense treatment to hydrate the face, fight expression lines, flaccidity and reverse wrinkles by penetrating the deepest layers of the skin. Improves the functioning of the epidermis, repairing cell damage and restructuring protein production. It incorporates a mixture of 18 natural active ingredients, resulting in an intense cream that retains moisture for hours, helping to nourish and soothe the skin.

PERFORMANCE

A powerful anti-wrinkle treatment to ensure that the skin is more elastic and hydrated, recovering the water that your skin loses naturally with the effects of the sun, pollution and the passage of time. With a high concentration of antioxidants, vitamins and regenerators to strengthen, nourish and care for the skin.

Fights the signs of ageing, achieving smoother, firmer and more luminous skin. Accelerates cell regeneration, maintains its optimal level of function and prevents water loss.

ACTIVE INGREDIENTS

Hemp Oil

Contains antioxidant agents, which protect the skin from free radicals that cause cell degradation and the formation of wrinkles, expression lines and other signs of ageing. This oil prevents the appearance of signs of skin ageing and helps protect the skin from environmental damage and other external aggressions.

Rose Hip Oil

It is an oil with great properties for cell regeneration. Its composition with numerous essential fatty acids (omega 6, omega 3 and linoleic acid), antioxidants and vitamins (vitamin A —retinol—, vitamin C, vitamin E) make it an essential ally in anti-ageing.

Orange Extract

It has a high content of flavonoids, vitamin C and vitamin B3. Maintains the good condition of the skin and prevents the oxidative process. Improves the flexibility of the skin, reduces wrinkles and spots that occur on the skin as a result of skin ageing and sun exposure.

HOW TO USE

Apply an even layer to clean skin, avoiding the eye area. Gently massage until fully absorbed. Use as the final step of the professional facial treatment.

Do not rinse.

98 %

skin-friendly ingredients of natural origin:

Hemp Oil, Rosehip Oil, Organic Lemon Water, Olive Oil, Orange Extract.

1%

additional ingredients to ensure the stability and safety of the formula:

Sodium Benzoate, Potassium Sorbate.

Dermatologically tested.

24 Hour Massage Cream
500 ml

With Soybean Oil and Moringa Oil

Massage cream that revolutionizes the concept of professional massage products. Designed for all skin types, when applied, it creates a light and pleasant emulsion that is suitable for all types of massage. Formulated from an honest, sincere perspective that does not promise unattainable goals.

PERFORMANCE

It reinforces the action of the massage and makes it more pleasant. To take advantage of its benefits, simply apply the cream to the area to be massaged. The cream quickly transforms into an emulsion with a light and pleasant texture for easy application. After heavy exercise, a professional massage is recommended to relax the muscles.

Combines 9 natural oils that nourish and soothe the skin. It contains relaxing properties that help to enjoy the massage. With a light texture for easy application and absorption, perfect for professional massages.

ACTIVE INGREDIENTS

Soybean Oil
With a high content of vitamins, minerals and, above all, isoflavones with antioxidant properties, it has been discovered that soybeans help to keep the skin's hydration levels constantly high. And it is that this plant acts as an antioxidant and prevents the action of free radicals by acting on the lipid profile of the skin and favouring the creation of collagen.

Argan Oil
It has a high content of vitamins, which makes it a powerful antioxidant. Minimizes expression lines and nourishes the skin. All this promotes a youthful appearance and delays the appearance of wrinkles. Moisturizes the skin, reaffirms and, due to its regenerative capacity, provides greater elasticity to the skin.

Olive Oil
Contains a wide variety of antioxidants, minerals and vitamins whose main function is to protect our skin from the different external agents that manage to damage our skin.

Sunflower Oil
Is an excellent skin repair agent. It prevents skin dehydration and has soothing, nourishing and antibacterial properties.

Sweet Almond Oil
Rich in plant-based proteins, almond oil has a very important nourishing action that makes it suitable for facial care. It stands out for the flexibility it provides to the skin, moisturizing it, nourishing it and preventing it from ageing prematurely.

Marula Oil
Originally from Namibia, it has been used for centuries to hydrate and repair the skin. Its most special feature is that it has 60 % more natural antioxidants than other oils. It contains 72 % Omega 9 fatty acids, as well as linoleic acid, sterols, flavonoids, catechins and stearic acid.

Moringa Oil
Special to enhance the natural vitality of the skin, helps keep the skin moist and soft, fights the signs of ageing and loss of elasticity, reduces inflammation and helps care for the skin and reduce scars and blemishes.

HOW TO USE

Apply a small amount to your hand, warm the product and spread evenly with both hands.

Massage gently with circular movements throughout the desired area.

Perfect for a relaxing massage thanks to its calming properties and the fruity and floral aromas it gives off.

98 %

skin-friendly ingredients of natural origin:

Soybean Oil, Olive Oil, Sweet Almond Oil, Coconut Oil, Argan Oil, Sunflower Oil, Moringa Oil and Marula Oil.

1%

additional ingredients to ensure the stability and safety of the formula:

Sodium Benzoate, Potassium Sorbate..

Dermatologically tested.

ENZYPEEL Enzymatic peeling
200 ml

With Papaya Extract and Amber Powder

A gentle enzymatic peeling treatment designed to renew and revitalize the skin without causing irritation.
Its formula combines natural enzymes and mild physical exfoliants to remove dead skin cells, improve skin texture, and restore radiance. It is especially suitable for sensitive or reactive skin types that do not tolerate traditional acid exfoliants.
Thanks to its content of papaya extract, rich in papain, and amber powder, it helps exfoliate the skin surface, promoting effective yet non-aggressive cellular renewal

PERFORMANCE

Enzymatic exfoliation: Papain, a natural proteolytic enzyme present in papaya extract, breaks the bonds between dead epidermal cells, making their removal easier without friction or irritation.

Mild physical exfoliation: Amber microparticles provide a light mechanical action that enhances the removal of impurities.

Cellular renewal: Glycolic acid in the formula complements the exfoliating action, helping to achieve smoother, more even-looking skin.

ACTIVE INGREDIENTS

Papaya Extract
A natural source of papain, an enzyme that gently exfoliates without damaging the skin.

Amber Powder
A natural mineral particle that offers a mild physical exfoliation.

Glycolic Acid
An alpha hydroxy acid (AHA) that stimulates cell renewal and improves texture and brightness.

HOW TO USE

Apply to clean, dry skin, avoiding the eye contour area. Gently massage in circular motions.

Leave on for 5 to 10 minutes and rinse off.

94.5 %
skin-friendly ingredients of natural origin:
Papaya Extract and Amber Powder.

1%
additional ingredients to ensure the stability and safety of the formula:
Ethylhexylglycerin, Phenoxyethanol

Dermatologically tested.

CALMANT MASK Clay Mask
200 ml

With Kaolin

Calms, detoxifies and purifies the dermis in depth due to its calming and soothing ingredients that improve cell regeneration. Improves elasticity and achieves smooth and even skin.

PERFORMANCE

Pure Mediterranean Kaolin deeply cleanses, regulates excess sebum, reduces pimples and leaves skin smooth, soothed and clean.

The synergy of sweet almond oils and colloidal oatmeal soothe, revitalize and remineralize the skin, providing a bomb of vitamins and minerals that instantly eliminates the consequences of swollen and tired skin.

Thanks to its astringent power, it makes the skin more balanced and with less visible pores.

ACTIVE INGREDIENTS

Kaolin

Due to its special molecular structure, it has the ability to absorb the deepest impurities such as dirt and pollution residues. Its high cleaning and exfoliation power make it an excellent option to minimize the appearance of pores. Absorbs excess shine on skin without completely stripping natural oils. This gives the skin a balanced, radiant and nourished appearance.

Oatmeal

Useful for relieving itching, as it has a calming action and is very good in case of irritation, eczema, itching, dermatitis, hives or psoriasis. It has a cleansing effect, absorbs the dirt that accumulates in the pores. Helps reduce and treat acne by controlling sebum production and the formation of shine on our skin.

Sweet Almond Oil

Stands out for the flexibility it provides to the skin, moisturizing it, nourishing it and preventing it from ageing prematurely.

HOW TO USE

Apply an even layer to cleansed skin, covering the face, neck and décolletage, avoiding the eye contour and lip areas.

Leave on for 20 minutes.

Remove with warm water using gentle circular massage movements.

98 %
skin-friendly ingredients of natural origin:
Kaolin, Colloidal Oatmeal, Almond Oil.

1%
additional ingredients to ensure the stability and safety of the formula:
Sodium Benzoate, Potassium Sorbate.

Dermatologically tested.

FACIAL CONDUCTIVE Gel
500 ml

With Niacinamide, Oat Extract, Sweet Almond Oil and Hyaluronic Acid

It is the perfect ally to ensure optimal conduction during facial aesthetic treatments. Its creamy formula allows smooth gliding of electrodes or probes, ensuring a comfortable and effective professional experience.

Enriched with niacinamide (Vitamin B3), oat extract (with immediate tensing effect), sweet almond oil, and hyaluronic acid, it not only facilitates the treatment but also provides comprehensive action: hydration, nutrition, immediate tensing effect, and regeneration.

PERFORMANCE

Optimal conductivity: its creamy texture favors uniform current transmission, improving the effectiveness of the professional treatment. Immediate and visible tensing effect: thanks to the high molecular weight of the oat extract and its ability to form a cohesive and elastic network through hydrogen bonds, it adheres to the skin's surface, creating a continuous and flexible film that provides an immediate lifting effect. Nourishing and emollient action: sweet almond oil and jojoba esters provide essential lipids that nourish, soften, and protect the skin during the session. Hydrating and plumping effect: hyaluronic acid provides deep hydration, helps maintain elasticity, and visibly plumps the skin. Soothing, regenerating, and long-lasting tensing action: oat extract possesses emollient and soothing properties, as well as a prolonged anti-wrinkle effect. Illuminating, unifying, and strengthening effect: niacinamide regulates sebum production, strengthens the skin barrier, and stimulates the synthesis of epidermal lipids (ceramides and lipid acids). Comfort and glide: non-greasy formula, easy to spread, allowing continuous gliding without interruptions.

ACTIVE INGREDIENTS

Niacinamide (Vitamin B3)
Strengthens the skin barrier, hydrates and soothes the skin, enhances radiance and evens skin tone, while helping to minimise imperfections and excess sebum.

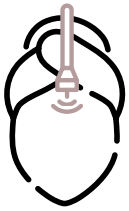

Oat Extract
Immediate tensing effect: high molecular weight molecular network that forms a cohesive, elastic, and continuous film on the skin.
Long-lasting efficacy: after continued use, improvement in smoothness and reduction of wrinkles.

Sweet Almond Oil
Rich in vitamin E and essential lipids, it deeply nourishes, improves elasticity, and helps maintain the skin barrier in optimal condition.

Hyaluronic Acid
Capable of retaining up to one thousand times its weight in water, it deeply hydrates, fills superficial wrinkles, and improves skin density and smoothness.

Jojoba Esters
Natural origin ingredients that provide stability to the formula and a creamy, soft, pleasant texture on the skin.

HOW TO USE

Apply the required amount to the area of skin to be treated, forming an even layer. Carry out the treatment.

At the end of the treatment, remove.

97 %
skin-friendly ingredients of natural origin:

Sweet Almond Oil, caffeine.

1%
additional ingredients to ensure the stability and safety of the formula:

Phenoxyethanol, Ethylhexylglycerin

Dermatologically tested.

LARIMIDEPRO®
Spain

ALGINASINE VIVIFY Detox Peel-off Mask

250 g

With Glycoproteins and Amino Acids

Moisturizing and oxygenating action mask based on alginates and diatomaceous earth.

PERFORMANCE

Contains glycoproteins and amino acids for a double oxygenating and refreshing effect: it promotes the natural renewal of the skin, helping to purify it, eliminating toxins that accumulate in the dermis.

After its application, it provides a pleasant immediate effect that tones and redefines the facial oval. Decongests and improves the appearance of wrinkles, bags and dark circles.

Firming, oxygenating and detox action.

ACTIVE INGREDIENTS

Glycoproteins

Their main function is to repair dehydrated skin, improve collagen formation and increase the synergistic effect they have with other nutritional trace elements and antioxidants such as vitamins.

Amino Acids

They are responsible for internally supplying the nutrients and vital substances that nourish the skin. Amino acids are good for total internal regeneration, facilitating deep oxygenation of the dermis and helping to smooth wrinkles on the skin.

HOW TO USE

1. Measure out 25 g of powder.
2. Add 55 ml of water all at once. Experienced users may use up to 65 ml if required.
3. Mix vigorously until a smooth, glossy paste is formed. Ensure there are no lumps.
4. Apply evenly to the skin using a spatula, forming a 3–4 mm layer. Apply a thicker layer (6–7 mm) around the edges to aid removal. Adjust thickness if necessary.
5. Leave on for 15–20 minutes.
6. Gently peel off the mask in one piece.

99 %

skin-friendly ingredients of natural origin:

Glycoproteins, Glutamic Acid, Valine and Threonine.

Dermatologically tested.

ALGINASINE B-LIKE Anti-wrinkle Peel-off Mask

250 g

With Acetyl Hexapeptide-8 and other Peptides

Mask with anti-wrinkle action based on alginates and diatomaceous earth. It acts on the skin repairing the damage caused by the passage of time and stimulates it, restoring the metabolic levels of a young skin. It combats flaccidity and loss of density, improves appearance, reduces wrinkles and improves skin tone. The result is younger and smoother skin.

PERFORMANCE

Contains Acetyl Hexapeptide-8 and smart peptides that eliminate wrinkles, mimicking the effect of botox and reducing the appearance of new expression lines.

After its application, it provides a pleasant immediate effect that redensifies and redraws the facial oval. Achieving a smoother and youthless skin.

Rejuvenating, anti-flaccidity, and anti-wrinkle action.

ACTIVE INGREDIENTS

Acetyl Hexapeptide-8

A peptide designed to act on the muscle contraction mechanism that targets the same protein complex as botulinum toxin, modulating muscle contraction and achieving an anti-wrinkle effect like botox.

Peptides

Repair sun damage at the cellular level, improving the luminosity and appearance of the skin, promoting collagen production and reducing wrinkles.

HOW TO USE

1. Measure out 25 g of powder.
2. Add 55 ml of water all at once. Experienced users may use up to 65 ml if required.
3. Mix vigorously until a smooth, glossy paste is formed. Ensure there are no lumps.
4. Apply evenly to the skin using a spatula, forming a 3–4 mm layer. Apply a thicker layer (6–7 mm) around the edges to aid removal. Adjust thickness if necessary.
5. Leave on for 15–20 minutes.
6. Gently peel off the mask in one piece.

99 %

skin-friendly ingredients of natural origin:

Acetyl Hexapeptide-8

Dermatologically tested.

ALGINASINE GOODWHITE Anti-Photoageing Peel-off Mask

250 g

With Daisy Extract

Mask with anti-photoageing action, act against the visible signs of ageing resulting from sun exposure, based on alginates and diatomaceous earth.

PERFORMANCE

Contains daisy extract that helps to eliminate dark spots, stimulating their disappearance and unifying the skin tone.

After its application, it provides a pleasant immediate effect that illuminates and revitalizes the facial oval. Improve the appearance of blemishes and hyperpigmented areas.

Revitalizing, illuminating and anti-blemish action.

ACTIVE INGREDIENTS

Daisy Extract

Inhibits the production of melanin in the skin, interfering before the start of synthesis and inhibiting the expression of proteins necessary for melanin synthesis, which is triggered when the skin is exposed to UV radiation. During the melanin production process, daisy extract reduces the melanosomes produced by keratinocytes and slows the activity of the enzyme called tyrosinase, which acts by accelerating melanin production.

HOW TO USE

1. Measure out 25 g of powder.
2. Add 55 ml of water all at once. Experienced users may use up to 65 ml if required.
3. Mix vigorously until a smooth, glossy paste is formed. Ensure there are no lumps.
4. Apply evenly to the skin using a spatula, forming a 3–4 mm layer. Apply a thicker layer (6–7 mm) around the edges to aid removal. Adjust thickness if necessary.
5. Leave on for 15–20 minutes.
6. Gently peel off the mask in one piece.

99 %

skin-friendly ingredients of natural origin:

Bellis Perennis (Daisy) Flower Extract.

Dermatologically tested.

ALGINASINE CALMANT Soothing Peel-off Mask

250 g

With Centella Asiatica Extract and Rosemary Extract

Mask with regenerating and soothing action based on alginates and diatomaceous earth. It helps the skin to regenerate, stimulating and strengthening collagen and elastin fibers, making it excellent for slowing down skin ageing.

PERFORMANCE

Calms redness and irritated skin with its natural ingredients that provide the mask with vitamin, regenerating, moisturizing and soothing properties.

After its application, it provides a pleasant calming effect that fights irritations and helps to relax the epidermis. Get a smooth skin and recovered from external aggressions.

Firming, toning and soothing action.

ACTIVE INGREDIENTS

Centella Asiatica Extract

Has a stimulating effect on collagen biosynthesis as well as firming the skin and activating blood circulation.

Rosemary Extract

Thanks to the phenolic diterpenes it contains, it is considered a powerful natural antioxidant. It has the ability to inhibit the oxidation of the cell membrane, ensuring that our skin is protected.

HOW TO USE

1. Measure out 25 g of powder.
2. Add 55 ml of water all at once. Experienced users may use up to 65 ml if required.
3. Mix vigorously until a smooth, glossy paste is formed. Ensure there are no lumps.
4. Apply evenly to the skin using a spatula, forming a 3–4 mm layer. Apply a thicker layer (6–7 mm) around the edges to aid removal. Adjust thickness if necessary.
5. Leave on for 15–20 minutes.
6. Gently peel off the mask in one piece.

99 %

skin-friendly ingredients of natural origin:

Centella Asiatica Extract, Rosemary Extract, Chamomile Extract and Licorice Extract..

Dermatologically tested.

LARIMIDEPRO®

Body

OILESSENCE Body Oil 360º

500 ml

With Soybean Oil and Marula Oil

Body oils that leave greasy residues

Oilessence is a 360° body oil formulated with fermented natural oils that enhance their cosmetic properties. It provides long-lasting intense hydration, along with regenerative and antioxidant action, helping to combat signs of ageing and improve the appearance and health of the skin. Its dry, fast-absorbing application leaves no greasy residue, making it a practical product ideal for daily use. Oilessence: protection without traces

PERFORMANCE

Nutrition: highly effective at deeply moisturising and nourishing the skin. Provides essential nutrients to help keep skin soft, supple and healthy.

Anti-ageing: contains vitamin E to help protect the skin from damage caused by free radicals.

Anti-stretch marks and scars: with regular use, it helps improve the appearance of stretch marks and scars on the skin.

Dry touch: its light, fast-absorbing texture provides a dry feel on the skin. It does not leave a greasy or sticky feeling.

Improves elasticity and firmness: with firming and toning properties. It stimulates the elasticity and firmness of the skin, providing a smoother and more youthful appearance.

ACTIVE INGREDIENTS

Sweet Almond Oil

This oil is known for its ability to moisturize and soften the skin. It is rich in essential nutrients such as fatty acids, vitamin E, and vitamin A, which help keep the skin nourished and flexible.

Soybean Oil

It is an emollient ingredient that helps improve skin hydration. It contains essential fatty acids and antioxidants that help protect and nourish the skin, leaving it soft and flexible.

Vitamin E

An antioxidant that protects the skin from harmful free radicals. It helps prevent premature ageing of the skin and promotes a younger and healthier appearance.

Fermented roots oil

This combination of fermented extracts from different natural ingredients provides moisturizing and nourishing benefits to the skin. It helps keep the skin soft, flexible, and healthy.

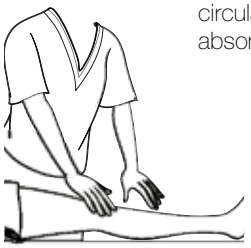

Marula Oil

It is extracted from the seeds of the marula tree and is known for its ability to moisturize and nourish the skin. It contains antioxidants and essential fatty acids that help improve the elasticity and firmness of the skin.

Moringa Oil

It is rich in antioxidants and vitamins, making it a beneficial ingredient for the skin. It helps nourish and protect the skin, improving its overall appearance.

HOW TO USE

Apply and spread all over the body making circular movements until completely absorbed.

98 %

skin-friendly ingredients of natural origin:

Soybean Oil, Marula Oil, Almond Oil, Moringa Oil, Argan Oil and Olive Oil.

1%

additional ingredients to ensure the stability and safety of the formula:

Vitamin E.

STRETCHPERFECT Prevents the Formation of Stretch Marks

500 ml

With Collagen, Elastin and Rosehip Oil

Helps prevent the formation of stretch marks and improves the appearance of existing ones. Lightweight, fast-absorbing and deeply moisturizing texture. Leaves the skin soft, supple and comfortable without a greasy feel. Dermatologically tested.
Stretchperfect is specially formulated to support skin elasticity and resilience during periods of stretching and change. Its nourishing blend of active ingredients helps keep the skin hydrated, smooth and visibly healthier-looking. With continued use, it helps improve skin texture and reduce the visibility of stretch marks, promoting a firmer and more even appearance.

PERFORMANCE

Enhances skin elasticity and flexibility: Contains Shea Butter, Rosehip Oil and Centella Asiatica extract, ingredients recognized for their moisturizing and regenerative properties. These actives help strengthen the skin's structure, improve elasticity and maintain skin flexibility. Helps prevent the appearance of new stretch marks: Provides deep hydration and nourishment, helping to keep the skin in optimal condition. By supporting skin elasticity, it helps reduce the risk of stretch mark formation caused by stretching and tension. Visibly reduces the appearance of existing stretch marks: Enriched with Collagen and Elastin, two key components that help improve skin texture and support the skin's natural regeneration process, making stretch marks appear less noticeable over time. Strengthens and revitalizes the skin: Contains botanical extracts such as Centella Asiatica, Rosemary and Chamomile, known for their regenerative and antioxidant properties. These ingredients help reinforce the skin barrier and improve the overall appearance of the skin. Hydrates and comforts the skin: Its fast-absorbing formula delivers long-lasting hydration without leaving a greasy residue, helping the skin feel soft, smooth and nourished throughout the day.

ACTIVE INGREDIENTS

Shea Butter
Highly nourishing and emollient, it is known for its ability to hydrate and soften the skin. It contains essential fatty acids and vitamins that improve skin elasticity and keep it smooth and flexible.

Rosehip Oil
Extracted from rosehip seeds, it is known for its regenerative and reparative properties. It contains essential fatty acids and antioxidants that help improve the appearance of the skin, reduce blemishes, and promote smoother and more radiant skin.

Collagen and Elastin
These are structural proteins naturally found in the skin. Collagen is responsible for skin firmness and elasticity, while elastin is responsible for flexibility. Together, they help improve the appearance of existing stretch marks and maintain smoother and more flexible skin.

Centella Asiatica Extract
This plant extract has anti-inflammatory and regenerative properties. It helps strengthen the skin barrier, stimulates the production of collagen and elastin, and promotes skin healing.

Polygonum Cuspidatum Extract
Rich in resveratrol, a powerful antioxidant that protects the skin from damage caused by free radicals. It also has anti-inflammatory properties that help soothe sensitive skin and reduce redness.

Scutellaria Baicalensis Extract
Helps soothe irritated skin, reduce redness, and promote a more even appearance. It also contributes to strengthening the skin barrier and protecting the skin from external environmental factors.

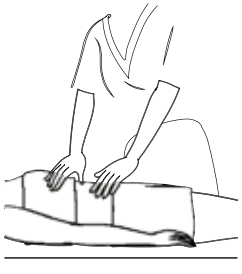

Camellia Sinensis Extract
Obtained from green tea, it is known for its antioxidant and soothing properties. It helps protect the skin from damage caused by free radicals, reduce inflammation, and improve the appearance of the skin.

Liquorice Extract
With anti-inflammatory and soothing properties, it helps reduce redness, alleviate irritation, and improve the appearance of sensitive skin.

Chamomile Extract
It has calming and soothing properties. Helps soothe sensitive skin, reduce inflammation, and alleviate irritation.

Rosemary Extract
Helps protect the skin from oxidative stress, improves circulation, and promotes a younger and revitalized appearance.

HOW TO USE

Apply the cream to clean and dry skin.

Spread it until completely absorbed by making circular movements to stimulate microcirculation.

98 %

skin-friendly ingredients of natural origin:
Shea Butter, Rosehip Oil, Collagen, Elastin, Rosemary

1%

additional ingredients to ensure the stability and safety of the formula:
Sodium Benzoate, Potassium Sorbatee.

Dermatologically tested.

CELLUFIX Anti-Cellulite Cream
500 ml

With Orange Water and Caffeine

Cellufix is the ideal supplement to help reduce cellulite and the appearance of orange peel skin on your thighs, buttocks and hips. Thanks to its main active ingredients, such as caffeine, silanol, glycerophosphocholine, lysine HCl and valine, it activates microcirculation, reducing toxins and fluid retention and helping to reduce fat accumulation, resulting in smoother, softer, more supple, toned and healthier skin.

PERFORMANCE

Reduction of cellulite: stimulate skin microcirculation and reduce fat accumulation, contributing to diminishing the appearance of cellulite. Improvement of skin texture: nourishes and softens the skin, improving its texture and leaving it smoother and more flexible. Smoother skin: With regular use, the skin acquires a firmer and more toned appearance. Hydration: provides deep hydration to the skin, keeping it soft and flexible.

ACTIVE INGREDIENTS

Orange Fruit Water
Known for its refreshing and revitalizing properties for the skin. It contains nutrients and antioxidants that help hydrate and improve the appearance of the skin, leaving it softer and radiant.

Sweet Almond Oil
Highly nourishing ingredient due to its moisturizing and softening properties. It is rich in essential fatty acids and vitamin E, which nourish the skin and help keep it flexible and healthy.

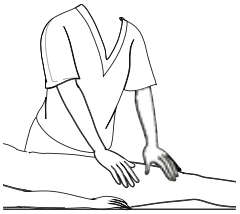

Caffeine
Highly effective due to its stimulating and fat-reducing properties. It helps stimulate blood circulation and break down fat cells, which contributes to reducing the appearance of cellulite.

Phosphocholine
It is a natural compound that helps improve the appearance of the skin and reduce sagging. It contributes to strengthening the skin barrier and keeping the skin hydrated and toned.

Lysine Hcl and Valine
These essential amino acids have beneficial properties for the skin. They help strengthen tissues and improve the overall appearance of the skin, contributing to a firmer and toned look.

HOW TO USE

Apply to clean, dry skin on the areas to be treated. Massage using firm, upward movements until fully absorbed, following the professional body treatment protocol.

98 %
skin-friendly ingredients of natural origin:
Orange Water, Almond Oil and Caffeine.

1%
additional ingredients to ensure the stability and safety of the formula:

Sodium Benzoate, Potassium Sorbate.

SCULPIFY Body Fit Cream
500 ml

With Almond Oil and Milk Thistle Extract

Reduces fatty tissue due to its action on muscle fibers. Light and moisturizing texture. Pleasant protective film against cold. Less oily skin in warm environments. Dermatologically tested.activity. This causes a reduction in adipose tissue and improves the appearance of orange peel skin, helping the skin to be more hydrated and, with continued use, providing a greater feeling of firmness, softness and toning.Sculpify, the perfect complement to support the remodelled appearance of the abdomen, thighs and arms.

PERFORMANCE

Helps reduce excess fatty tissue: contains active ingredients that act on fatty tissue, helping to reduce its uneven appearance. These ingredients work to mobilise and break down fat cells, allowing for a gradual reduction in problem areas.
Stimulates microcirculation: it contains plant extracts such as thistle extract and bearberry leaf extract, which have circulation-stimulating properties, promoting better blood flow in the treated areas and helping to improve toxin elimination and enhance the appearance of the skin.
Hydrates and softens: Sculpify is enriched with sweet almond oil, helping to keep skin hydrated and soft and preventing dryness and irritation.
Contributes to protection against the cold: forms a protective film on the skin, helping to protect it from the adverse effects of the cold.
Regulates oil production: In warm environments, it helps regulate oil production in the skin, preventing the feeling of oily skin and keeping the skin more balanced and fresh.

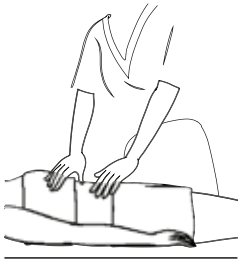

ACTIVE INGREDIENTS

Sweet Almond Oil
A nutrient-rich natural oil that moisturizes and softens the skin, leaving it nourished and supple.

Milk Thistle Extract
h antioxidant and firming properties, it helps improve the appearance of the skin.

Bearberry Leaf Extract
Traditionally used to help improve circulation and reduce the appearance of cellulite.

HOW TO USE

Apply the cream on clean and dry skin.

Extend it until completely absorbed by making circular movements with a reductive massage to facilitate the penetration of the active ingredients and decongest and tone the skin.

98 %
skin-friendly ingredients of natural origin:
Almond Oil, Milk Thistle Extract.

1%
additional ingredients to ensure the stability and safety of the formula:

MAXINABLISS Body Cream With Maxinadin

500 ml

With Rosehip Oil and Centella Asiatica

Maxinabliss is a body cream containing Maxinadin. It restores, soothes, protects and moisturises the skin. It helps to effectively prevent and treat redness and irritation Suitable for sensitive and dry skin, atopic dermatitis, psoriasis, acne, rosacea and seborrhoea. Eliminating that sometimes desperate itching sensation provides great relief and is an indispensable aid in avoiding the mistake of scratching and increasing the effects.
On the other hand, thanks to its healing effect, it acts not only on the consumer's health, but also on their appearance. For sensitive skin, Maxinabliss. Also suitable for children.

PERFORMANCE

Restores and soothes sensitive skin prone to dermatitis: helps relieve irritation and redness, restoring the skin barrier and providing a feeling of relief. Boosts the skin's natural defence system: has antioxidant and anti-inflammatory properties that help strengthen the skin and protect it from external factors. Prevents and treats redness and irritation: has soothing and softening properties, helping to reduce the appearance of redness and relieve discomfort in sensitive skin.

ACTIVE INGREDIENTS

Shea Butter
Highly nourishing, it is known for its moisturizing and softening properties. It helps improve the elasticity of the skin and keeps it smooth and flexible. It also contains vitamins and fatty acids that deeply nourish the skin.

Rosehip Oil
Obtained from the seeds of the rosehip, it is known for its regenerating and repairing properties for the skin. It contains essential fatty acids and antioxidants that help improve the appearance of the skin, reduce blemishes and marks, and promote softer and more radiant skin.

Centella Asiatica Extract
Known for its soothing and regenerating properties. It helps strengthen the skin barrier, stimulates the production of collagen and elastin, and promotes skin healing. It also has antioxidant and anti-inflammatory properties that help keep the skin healthy and protected.

Polygonum Cuspidatum Extract
Rich in resveratrol, a powerful antioxidant that helps protect the skin from oxidative stress and damage caused by free radicals. It also has anti-inflammatory properties that help calm sensitive skin and reduce redness.

Scutellaria Baicalensis Extract
It has antioxidant and anti-inflammatory properties. It helps calm irritated skin, reduce redness, and promote a more even appearance. It also contributes to strengthening the skin barrier and protecting the skin from environmental aggressors.

Camellia Sinensis Extract
Extracted from green tea, it is known for its antioxidant and soothing properties. It helps protect the skin from damage caused by free radicals, reduce inflammation, and improve the overall appearance of the skin.

Liquorice Extract
With anti-inflammatory and soothing properties. It helps reduce redness, relieve irritation, and improve the appearance of sensitive skin.

Chamomile Extract
Helps calm sensitive skin, reduce inflammation, and soothe irritation due to its calming and softening properties.

Rosemary Extract
Helps protect the skin from oxidative stress, improve circulation, and promote a fresher and revitalized appearance.

HOW TO USE

Apply the cream on clean and dry skin.

Extend until completely absorbed by making circular movements, to favor its total absorption.

98 %

skin-friendly ingredients of natural origin:

Shea Butter, Rosehip Oil, Liquorice Extract, Rosemary Extract, Centella Asiatica Extract and Chamomile Extract.

1%

additional ingredients to ensure the stability and safety of the formula:

BUSTLIFT Bust Firming
500 ml

With Fermented Green Algae Extract and Quince Extract

The skin of the bust is particularly fine and highly sensitive to UV radiation, with fewer sebaceous glands than the rest of the body. This makes the area more prone to premature ageing, dryness, loss of firmness and the appearance of wrinkles. The sensation of sagging or loss of firmness in the bust is one of the concerns that most affects women, especially during pregnancy or simply as part of the natural ageing process. As a result, not all women feel confident wearing low-cut clothing. Thanks to Bustlift, it is possible to achieve a more attractive neckline without resorting to invasive treatments such as cosmetic surgery, by optimally enhancing feminine features. Bustlift is a firming, remodelling anti-ageing cream with antioxidant active ingredients that deeply hydrates and acts primarily on the breasts. It stimulates controlled lipid storage in the mammary tissue, promoting a temporary volumising effect. When applied to the bust and décolletage, Bustlift and its rejuvenating effect help improve dermal quality by strengthening the dermal matrix and reshaping the contours of the neckline, resulting in firmer, smoother, more toned skin with fewer wrinkles. Ideal as a complementary treatment following weight loss, postpartum or post-lactation skin laxity, and in medical-aesthetic protocols focused on the bust. Visible results between 4 and 12 weeks

PERFORMANCE

Sagging breast firming: strengthen breast tissues, improving their firmness and lift. This helps combat sagging and restore a more toned and youthful appearance to the breasts. Hydration and smoothness: keep the skin of the bust area soft, flexible, and well-hydrated. This provides a sense of comfort and prevents dryness and roughness. Overall improvement in appearance: enhance the texture and appearance of the skin, leaving it smoother, firmer, and more toned. Soften the appearance of wrinkles and fine lines, providing a more youthful and rejuvenated look. Antioxidant protection: protect the skin from damage caused by free radicals and premature ageing. This contributes to maintaining healthier and more resilient breast skin, resistant to signs of ageing.

ACTIVE INGREDIENTS

Sweet Almond Oil
This oil is known for its ability to moisturize and soften the skin. It is rich in essential nutrients such as fatty acids, vitamin E, and vitamin A, which help keep the skin nourished and flexible.

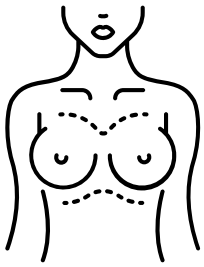

Organic Silica
Used for its firming and rejuvenating properties. It helps improve the penetration of the other active ingredients in the formula, contributing to combating sagging and maintaining a more toned appearance.

Mangosteen Peel Extract
This extract is known for its high content of antioxidants. Antioxidants help protect the skin from damage caused by free radicals, which can accelerate skin ageing.

Fermented Green Algae Extract
This combination of Chlorella Vulgaris algae extract and lupine protein (Lupinus Albus) has firming and nourishing properties for the skin. It helps strengthen tissues and improve the appearance of the breast skin, providing a firming and toning effect.

Quince Extract
This extract is obtained from the seeds of the Pyrus Cydonia plant. It has antioxidant and astringent properties, which contribute to improving the appearance of the skin. It helps tone and firm the skin, providing a more youthful and firmer look to the bust area.

HOW TO USE

Apply the cream on clean and dry skin.

Extend it until completely absorbed by making circular movements with an upward massage to facilitate the penetration of the active ingredients and tone the skin.

98 %

skin-friendly ingredients of natural origin:

Quince Extract, Fermented Green Algae and Sweet Almond Oil.

BODY CONDUCTIVE GEL
500 ml

Body Conductive Gel

Body Conductive Gel is the perfect ally to ensure optimal conduction during body aesthetic treatments. Its creamy formula allows smooth gliding of electrodes or probes, ensuring a comfortable and effective professional experience.

Enriched with sweet almond oil and caffeine, it not only facilitates the treatment but also nourishes, softens, and provides a stimulating action on the skin, enhancing aesthetic results.

PERFORMANCE

Optimal conductivity: its homogeneous, creamy texture favors uniform current transmission, improving the effectiveness of the professional treatment. Nourishing and emollient action: sweet almond oil provides essential fatty acids that nourish, soften, and protect the skin during the session. Stimulating effect: caffeine helps activate superficial microcirculation, complementing slimming or remodeling treatments. Comfort and glide: non-greasy formula, easy to spread, allowing continuous gliding without interruptions.

ACTIVE INGREDIENTS

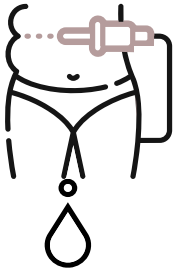

Sweet Almond Oil

Rich in vitamin E and essential fatty acids, it deeply nourishes, improves elasticity, and helps maintain the skin barrier in optimal condition.

Caffeine + Silicon

Silicon significantly improves the cutaneous penetration of caffeine and enhances its lipolytic activity.

HOW TO USE

Apply the required amount to the area of skin to be treated, forming an even layer. Carry out the treatment.

At the end of the treatment, remove.

LARIMIDEPRO®
Spain

BIOPEEL PERFECT Anti-blemish Biochemical Peel

7 u x 2 ml / 30 u x 2 ml

Salicylic Acid 1%, Gluconolactone 5%

Reduces the appearance of comedones, pimples, blackheads and improves the appearance of the skin, especially in oily skin.

This Biopeel combines ingredients with a powerful keratolytic and sebum-regulating effect, for oily, pro-acneic and seborrheic skin.

PERFORMANCE

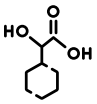

Designed to obtain a smoother, more uniform and homogeneous skin. Thanks to its high concentration of gluconolactone, it has exfoliating, antioxidant, unifying and regenerating properties.

ACTIVE INGREDIENTS

Gluconolactone

Reinforces the skin's barrier, improves its luminosity and visibly reduces the signs of ageing without causing discomfort or irritation. It has moisturizing and antioxidant properties, and is ideal for combating imperfections.

Salicylic Acid

Penetrates easily, quickly and deeply through the lipid barriers of the epidermis. It is easily absorbed so it is highly effective, excellent in the treatment of skin disorders involving excess sebum production.

HOW TO USE

Apply a few drops to the area to be treated, as many times as the professional decides.

Leave under exposure for 10 min and remove. If any type of reaction is observed, remove immediately.

Do not apply to mucous membranes or around the eyes.

BIOPEEL MOIST Deep Hydration Biochemical Peel

7 u x 2 ml / 30 u x 2 ml

Lactic Acid 10% Malic Acid 10%

With a high concentration of two acids, they form a perfect combination for an immediate treatment against rough and withered tissue that arises from the lack of hydration of the skin. It eliminates dead cells due to osmotic imbalance and replaces them with young and plump cells.

This treatment is recommended for all skin types and in some cases, it is usually combined with other types of Biopeels to obtain better results.

PERFORMANCE

It achieves the elimination of dead cells in a gentle and controlled way, which helps to reactivate blood circulation, to cleanse the pores in a deep way and to stimulate the hydration of the cells of the dermal tissue.

It improves the water capacity of the epithelial cells, achieving skin with a greater quantity of water molecules that reinforce cell hydration and improve its function.

Renews the layers of the epidermis by exfoliating the superficial cells and promoting cell renewal that gives rise to a new, younger and more functional epidermis.

ACTIVE INGREDIENTS

Lactic Acid

Helps the oldest and most dysfunctional cells on the skin's surface to detach by dissolving the bonds that hold them together. Lactic acid accelerates cell renewal and stimulates cell regeneration. Lactic acid helps improve the skin's natural moisturizing factor, or the way the skin stays hydrated.

Malic Acid

Naturally sourced from apples, malic acid is probably the least well known of the commonly used skincare ingredients. As an AHA, it stimulates the rate of skin cell renewal and increases collagen production.

HOW TO USE

Apply a few drops to the area to be treated, as many times as the professional decides.

Leave under exposure for 10 min and remove. If any type of reaction is observed, remove immediately.

Do not apply to mucous membranes or around the eyes.

BIOPEEL AGE Antiage Biochemical Peel

7 u x 2 ml / 30 u x 2 ml

Glycolic Acid 5%, Azelaic Acid 5%, Niacinamide 5%

Formula that fuses acids with a powerful anti-inflammatory active ingredient: Niacinamide. With exfoliating, renewing, rejuvenating and regenerating action, it has special characteristics thanks to the synergy obtained from the union of the combined active ingredients that improve the results and increase the power of the formula.

Recommended to globally treat all signs of ageing and intensely rejuvenate the face.

PERFORMANCE

It removes the most superficial layers of the skin, renewing them and improving the skin's micro-relief while stimulating cell activity, causing a significant improvement in the elasticity, firmness and turgor of the skin.

Renews the layers of the epidermis by exfoliating the superficial cells and promoting cell renewal that gives rise to a new, younger and more functional epidermis.

ACTIVE INGREDIENTS

Glycolic Acid

It is a very versatile active ingredient that, thanks to its properties, is used to treat various skin problems. Exfoliating par excellence, it frees the cells in the process of desquamation of the skin by breaking the intercellular junctions, giving rise to new cells with greater vitality.

Azelaic Acid

Acts on the skin as a gentle, leave-in exfoliant that helps unclog pores and refine the skin's surface. Significantly reduces factors in the skin that cause sensitivity and blemishes and provides antioxidant benefits.

Niacinamide

One of the most powerful anti-inflammatories in the world of beauty, making it a great ally for people with acne, rosacea, hypersensitivity or irritable skin. It instantly relaxes the skin and is a great amplifier of other active ingredients. It is a powerful antioxidant that protects the skin from free radicals such as pollution or solar radiation. It is naturally stable and helps the skin protect itself and control its own sebum production.

HOW TO USE

Apply a few drops to the area to be treated, as many times as the professional decides.

Leave under exposure for 10 min and remove. If any type of reaction is observed, remove immediately.

Do not apply to mucous membranes or around the eyes.

BIOPEEL UNIFY Photoageing Biochemical Peel

7 u x 2 ml / 30 u x 2 ml

Tranexamic Acid 3%, Daisy Extract, Glycolic Acid 5%

With a high concentration of two acids, they form a perfect Treatment of skin photoageing, improves dull skin, unifies skin tone and brightens the skin. Formulated to treat premature wrinkles, sagging, roughness, dryness and dull skin, the result of changes in pigmentation that appear in areas exposed to the sun.

PERFORMANCE

This biopeel acts on three levels to illuminate the skin:

At the cellular level, removing dead cells that give the skin a dull tone.

In dermal pigments, it helps break down melanin, reducing the formation of spots.

It enhances the appearance of new cells that revitalize the skin, achieving a more uniform and luminous tone.

ACTIVE INGREDIENTS

Glycolic Acid

It is a very versatile active ingredient that, thanks to its properties, is used to treat various skin problems. Exfoliating par excellence, it frees the cells in the process of desquamation of the skin by breaking the intercellular junctions, giving rise to new cells with greater vitality.

Tranexamic Acid

Manages to depigment the skin, inhibiting the binding of plasminogen to keratinocytes, which are the superficial cells of the epidermis where melanin accumulates. This in turn decreases the formation of arachidonic acid, giving rise to fewer prostaglandins and leukotrienes, producing an inhibitory effect on the enzyme tyrosinase that regulates the formation of the pigment melanin.

Daisy Extract

Natural ingredient with scientifically proven efficacy that acts at different levels, reduces the activity of tyrosinase, even before melanin synthesis is induced and produces a decrease in melanin in the skin.

HOW TO USE

Apply a few drops to the area to be treated, as many times as the professional decides.

Leave under exposure for 10 min and remove. If any type of reaction is observed, remove immediately.

Do not apply to mucous membranes or around the eyes.

SHOCK PURIFY Against the appearance of skin imperfections

7 u x 2 ml / 30 u x 2 ml

With Green Tea Extract and Bioflavonoids

Shock Purify contains natural ingredients that help rebalance the lipid layer, with powerful antiseborrheic and antibacterial properties, which have a control effect on the sebaceous glands, preventing the formation of imperfections and reducing bacterial proliferation.

Natural extracts, including green tea, reduce inflammation while softening the skin, achieving less oily skin, without acne and with fewer blackheads.

Recommended for oily skin.

PERFORMANCE

The natural ingredients it contains generate a dermopurifying action that is especially indicated to correct small imperfections and impurities in acne-prone skin. Helps to mattify the skin, prevents shine and dims and reduces the appearance of pores.

ACTIVE INGREDIENTS

Green Tea Extract

Acts as a moisturizer and antibacterial, reducing excess hormonal activity. The astringent function of the tannins that form it is capable of regulating the excess oil of skin that tends to have pimples, and manages to reduce pores.

Bioflavonoids

Act as powerful antioxidants and help fight the signs of ageing, thus preventing the formation of wrinkles and skin imperfections. They regulate the tone of the skin, acquiring a uniform and slightly illuminated complexion.

HOW TO USE

Break the ampoule and apply with a gentle circular massage.

Avoid eye contour.

External use.

Not injectable.

SHOCK ACTIVE Activate epidermal cells and increase energy levels

7 u x 2 ml / 30 u x 2 ml

With Hyaluronic Acid and Stem Cells

Human skin is the largest repository of adult stem cells, but, over time, its activity is reduced, causing skin deterioration. With the passing of time, the energy level of stem cells is affected by the circadian rhythm; good internal oxygenation of the mitochondria is vital to keep stem cells in perfect condition, preserving 100% of their ability to regenerate the skin.
Shock Active stimulates the mitochondria to oxygenate the skin; thereby activating the stem cells from within.

PERFORMANCE

Stem cells contain molecules that favour the memory and intelligence of skin cells. They help to firm and improve the stability of the cell membrane, which protects it from free radicals, and helps eliminate toxins, improving elasticity. In addition, its great affinity for the skin provides rapid absorption.
Epigenetic technology, derived from the action of stem cells on genes, helps activate proteins that regulate DNA, preventing apoptosis or self-destruction of cells and delaying cell ageing.
For its part, hyaluronic acid firms the skin and reduces wrinkles by moisturizing the epidermis and enhancing the synthesis of collagen and elastin.

ACTIVE INGREDIENTS

Stem Cells

Delay the ageing process and improve quality of life by repairing and regenerating cellular tissue. They promote growth and delay signs of ageing by increasing energy levels.

Hyaluronic Acid

Manages to balance the gradual loss of water through two different mechanisms. On the one hand, it incorporates HA molecules into the deeper layers of the skin, where each molecule is able to accumulate 10 times its weight in water, and also in the outer layer of the epidermis, creating an invisible film that prevents dehydration..

HOW TO USE

Break the ampoule and apply with a gentle circular massage.

Avoid eye contour.

SHOCK WRINKLE Combat ageing naturally and stimulate cell regeneration

7 u x 2 ml / 30 u x 2 ml

With Phytoplacenta

An innovative synergistic combination that manages to reinforce the dermal extracellular structure and rejuvenates the epidermic cells.
Increases the levels of cellular nutrients, achieving smoother, firmer and more flexible skin. Each Shock contains a powerful cocktail of vitamins, proteins and botanical stimulants that activate all the regenerative power of nature. Perform on skin cells providing all the necessary ingredients to promote cell regeneration and tissue revitalization.

PERFORMANCE

It provides proteins, vitamins and amino acids with a bioidentical structure to those of the dermis and epidermis. It activates the cellular genetic expression that regulates the skin's hydration level and significantly improves skin relief, providing nutrition, softness and hydration. The skin increases protein synthesis levels, which significantly affects hydration in all layers of the dermis.
Phytoplacenta contains powerful plant-derived stimulators called phytostimulins that positively influence the skin's stem cell resistance against ageing, promote skin regeneration and delay the appearance of wrinkles. Its immediate action facilitates cell regeneration, smooths skin relief and prevents the appearance of wrinkles while respecting the skin's ecosystem.

ACTIVE INGREDIENTS

Glycoproteins

Their main function is to repair dehydrated skin, improve collagen formation and increase the synergistic effect they have with other nutritional trace elements and antioxidants such as vitamins.

Phytoplacenta

It has the ability to regenerate tissues very easily as it has a cellular structure identical to our skin. Helps the skin to actively defend itself against fatigue and stress, improving the supply of oxygen to the cells of the epidermis. It stimulates cell respiration, producing an increase in enzymatic activity and revitalizing suffocated, untoned and fragile skin.

HOW TO USE

Break the ampoule and apply with a gentle circular massage.

Avoid eye contour.

SHOCK ILLUMINATE Unify the skin tone and illuminate the skin

7 u x 2 ml / 30 u x 2 ml

With Daisy Extract and Glycoproteins

Unify skin tone and illuminates the skin while boosting cellular energy levels.
Contains daisy extract for the prevention and treatment of dull skin with generalized and localized blemishes of melanin and vascular origin. Prevents, slows down and clarifies dull skin thanks to its high concentration of illuminating active ingredients to achieve skin with a uniform tone and vitality.
With glycoproteins and amino acids that increase cellular energy levels to restore your skin's full potential.
The result is skin with an unify tone, greater vitality and radiance.

PERFORMANCE

With a high concentration of natural active ingredients that act in combination with depigmenting properties that help prevent and treat the size and number of spots. With revitalizing agents that promote cell proliferation, helping to have a younger skin tone, fighting against the signs of photoageing.

Inhibits the formation of melanin thanks to daisy extract, which prevents melanin from grouping into melanosomes that are transferred to the superficial layers of the skin, forming visible spots.

ACTIVE INGREDIENTS

Daisy Extract

Inhibits the production of melanin in the skin, interfering before the start of synthesis and inhibiting the expression of proteins necessary for melanin synthesis, which is triggered when the skin is exposed to UV radiation. During the melanin production process, daisy extract reduces the melanosomes produced by keratinocytes and slows the activity of the enzyme called tyrosinase, which acts by accelerating melanin production.

Glycoproteins

Their main function is to repair dehydrated skin, improve collagen formation and increase the synergistic effect they have with other nutritional trace elements and antioxidants such as vitamins.

HOW TO USE

Break the ampoule and apply with a gentle circular massage.

Avoid eye contour.

BIOPEEL SHOCK 28-day intensive treatment

28 u x 2 ml Home Use

The secret of young, smooth, luminous and vital skin is a monthly treatment that acts daily on the different needs of our skin with the incorporation of scientifically advanced molecules, tested and biocompatible with the dermal needs of daily life.
This treatment will prevent premature ageing, blemishes, dehydration and dull skin, while maintaining vital functions optimally and reinforcing the skin's regeneration mechanisms.
It is an innovative composition of 28 ampoules of 8 different types that will keep your skin fully cared for from the comfort of your home. With selected ingredients that adjust to biochemistry in an avant-garde art that looks to the future, with highly effective ampoules and seeking immediate results.
Created to use one ampoule a day, treating each week one of the basic needs of the skin and configuring a total treatment throughout the month that covers all the needs of the dermis.
Designed by professionals according to the needs of the skin and the specific concerns of the clients.
